

Quartz Care & Maintenance Sheet

Your *FTL* Quartz Countertop has been designed to be hassle-free. Follow our easy recommendations below for everyday cleaning and stains.

General Use

- Use hot-pads or trivets. Do not rest hot dishes directly on countertop.
- Use cutting boards to avoid unnecessary scratching. While more resistant to scratching than other materials, Quartz is NOT scratch PROOF.

Everyday/Routine Cleaning

- Lightly scrub with a non-abrasive or spray cleaner and wipe clean with water and soft cloth.
- Non-abrasive sponges are best, anything Teflon-safe is ideal.
- Avoid using dish soap, as these tend to leave behind a residue, which over time, builds up and traps grease, dirt, and stains.

Everyday Stains

(Ink, Coffee, Curry, etc)

- Bleach or a mildly abrasive cleaner may be used.
- Scrub lightly and rinse completely with water and a soft cloth.

Tougher Stains & Scratches

- Please contact your countertop installer as soon as possible.
